

ReAct™ Blend

PLC Extender

Usages

Portland Limestone Cement

Compressive Strengths

Similar strength to traditional Type IL cement at higher replacement amounts.

Workability

Improved Workability

Cement Replacement

5–10%

ASTM

C595 or C1157

ReAct is a white reactive calcium carbonate that offers cement producers a unique opportunity, an additional cementitious material on site.

+ Business Applications

Structural concrete application such as ready-mix, precast components, as well as general construction elements suitable for masonry works.

+ Key Benefits

Improved Particle Packing

More Homogeneous Cement Paste Microstructure

Water Reduction

Improved Workability and Lower Permeability

Enhanced Degree of Hydration

Increased Early-Age Strength

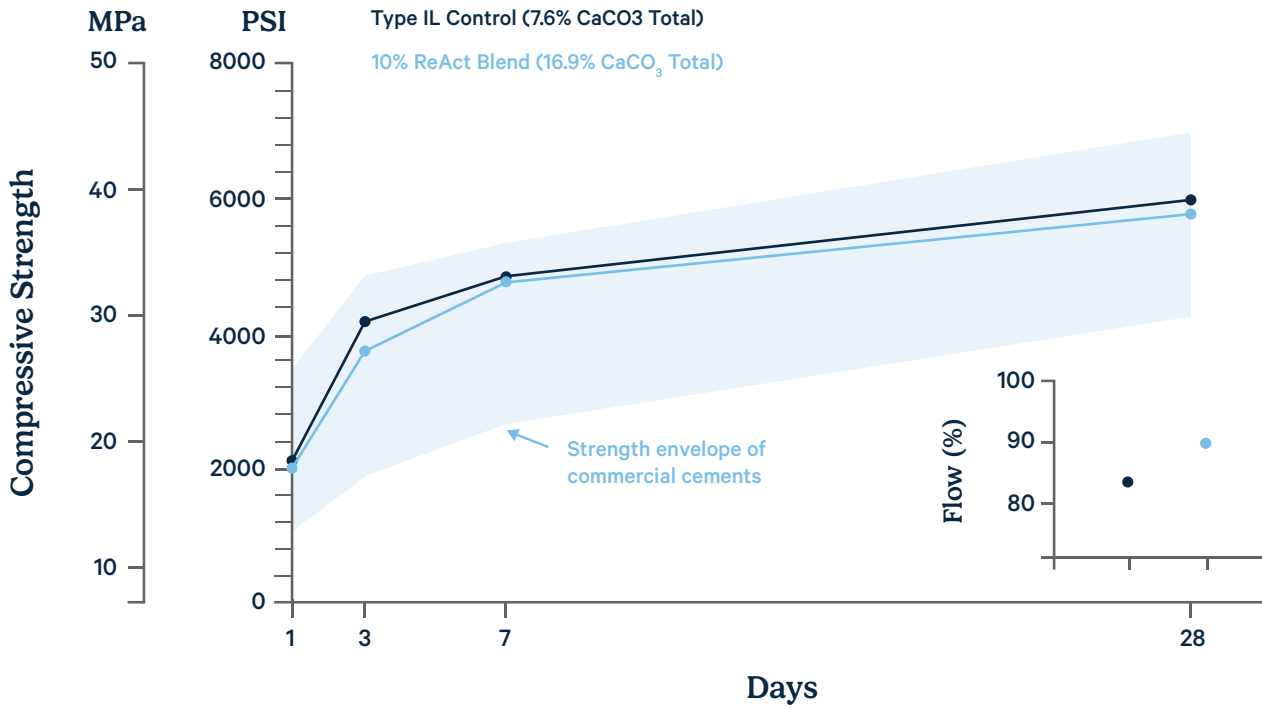

Reduced Carbon Intensity of Binder

Easy to Blend and Handle

+ Available 2024 Q1
